

FOR IMMEDIATE RELEASE

Mappedin Launches Multi-Building Venue Mapping

Map creation for seamless navigation of complex indoor-outdoor venues is simplified with the new Mappedin Advanced subscription for self-service mapmaking

[Waterloo, Canada, June 10, 2025] - Mappedin, the indoor mapping leader transforming the way venues are experienced, managed, and understood, announced today the launch of new self-service mapmaking capabilities to empower venue owner operators, facilities managers, and mapmakers to effortlessly create, share, and maintain maps spanning multiple buildings. Addressing the demands of sectors needing intricate campus-style maps with upgraded navigation capabilities, Mappedin Advanced is a new self-service subscription tier that simplifies multi-building mapping, seamless navigation, venue-wide map editing with path management, and advanced AI-automated label detection.

"We're dedicated to providing mapmakers with the most powerful and versatile tools that simplify the complexities of indoor mapping and navigation," said Hongwei Liu, Founder and CEO at Mappedin. "We're unlocking new ways to map and Mappedin Advanced provides all the tools needed for complicated indoor-outdoor venues like universities, hospitals, and corporate centers, simplifying multi-building mapping and seamless navigation across entire venues."

Today's release of Mappedin Advanced offers:

- **Multi-building mapping:** Create maps encompassing multiple buildings within one venue for navigation based on seamless indoor-outdoor pathing.
- **Campus-level editing tools:** Manage walking routes and direct foot traffic to align wayfinding with your desired navigation flow.
- **Advanced label detection with AI mapping:** Enhanced floor plan label recognition to accelerate your mapping process.

About Mappedin Subscriptions

Mappedin self-service subscriptions allow anyone to easily create maps and flexibly scale up as usage and required features increase.

- **Mappedin Free:** Anyone can sign up quickly and start creating and sharing 3D indoor maps with navigation.
- **Mappedin Plus:** Individuals and businesses who want control and customization with styling and point of interest details to build richer maps. Plus starts at \$25 per map per month, billed annually.
- **Mappedin Advanced:** Businesses and organizations that need multi-building mapping with indoor-outdoor navigation. Advanced starts at \$85 per map per month, billed annually.
- **Mappedin Pro:** Professional users, integrators, and developers who want to build complete map experiences using a wider array of tools, with full API and SDK access. Pro starts at \$165 per map per month, billed annually.
